

## Turfgrasses

<b>BLUEGRASSES</b>		
	UNIT	New lawn 2-3 lbs./1000 sq. ft., overseeding use half rate.
Arrowhead	50 lb	Drought stress standout, dark green, superior spring greenup & winter color, excellent leaf spot resistance.
Bedazzled	50 lb	Lush green turf with excellent powdery mildew resistance, top rated in NTEP trials. (America type.)
Beyond	50 lb.	Stands up to heat & drought with a carpet-like turf that is aggressive and thrives in sun or shade.
Blueberry	50 lb	Elite new variety, excellent performance under heavy traffic, rich dark color, top performer. (Compact type.)
Boutique	50 lb	A top performing compact America-type, excellent winter color, quick establishment, excellent disease resistance.
Brooklawn	50 lb	A reliable performer providing an attractive turf at an economical price. (Shamrock type.)
Common 85/80	50 lb	The most economical grade of bluegrass, free of undesirable grass seeds.
Common 98/85	50 lb	Economical grade of bluegrass with a high purity and no undesirable grass seeds.
NuBlue Plus	50 lb	Dark, rich color, fine leaf texture, with good heat and drought tolerance. Establishes rapidly, performs well under high or low maintenance, heat & drought tolerant.
NuDestiny	50 lb	Fast, reliable germination, tolerates all cutting heights, attractive, rich, dark green color.
NuGlade	50 lb.	Rich, dark green color, outstanding shade tolerance, tolerant to low mowing.
Triumph Bluegrass Blend	50 lb	A high quality mixture three top performing proprietary Kentucky bluegrass varieties for beautiful dark green lawn. Also available in 25 lb. Bag.
Volt	25 lb	An attractive, reliable workhorse variety, featuring early greenup and good cool weather color retention, vigorous establishment, and superior wear tolerance.
<b>CREEPING BENTGRASS</b>		
	UNIT	New lawn 1-2 lbs./1,000 sq. ft., overseeding use half rate.
L-93	25 lb	The top performing bentgrass - superior performance in every category for fairways, greens & tees.
Shark	25 lb	NTEP top performer. Aggressive, dense, more upright, improved resist. to dollar spot & take all patch.
T-1	25 lb	Aggressive, darkest green, excellent disease resistance, champion turf under championship maint.
<b>FESCUES, FINE</b>		
	UNIT	New lawns 5-6 lbs./1000 sq. ft., overseeding use half rate.
Chewings - Intrigue	50 lb	Sun or shade, low maint., excellent turf quality, dark green, endophyte enhanced, as well as enhanced weed suppression.
Creeping Red - Edgewood	50 lb	Improved variety for fine textured low maintenance turf in sun or shade.
Creeping Red - VNS	50 lb	Economical grade of creeping red fescue. Low maintenance.
Hard Fescue - Aurora Gold	50 lb	Glyphosate tolerant to allow easy elimination of competitive grasses to create a pure stand of fine textured, low maintenance turfgrass for sun or shade.
Hard Fescue - Beacon	50 lb.	NEW! Tops the NTEP trials (exp. Z6300) hard fescue ratings for turf quality, density, seedling vigor and red thread resistance.
Hard Fescue - Firefly	50 lb	Dark green, fine textured, low and slow growing, low maintenance for sun or shade.
Mix-Triumph Lo Gro	50 lb	Low maintenance mixture of proprietary hard, chewings, and creeping red fescues for use in sun or shade. Attractive yet ideal for harsh sites, nursery rows. Also avail. In 25 lb. Bag.

<b>FESCUES, TALL</b>		
	UNIT	New Lawns 6-8 lbs./1000 sq. ft., overseeding use half rate.
Avenger	50 lb	Tops NTEP, finer texture, resists brown patch, vigorous compact growth, drought tolerant
Bullseye	50 lb	Rated #1 in traffic tolerance in the NTEP trials during the establishment year. This variety provides a very dense turf of the highest quality.
Daytona	50 lb	Provides attractive, reliable and durable turf. Excellent for utility areas particularly if there is heavy traffic, in sun or shade.
Firenza	50 lb	Superior performance at an economical price. Dense, dark green, excellent wear tolerance.
Firecracker LS	50 lb	A highly dense variety with Lateral Spread technology, promoting greater tolerance to stress and improved recuperation from wear. Among the finest in leaf texture.
2nd Millennium	50 lb	Outstanding turf quality, excellent disease resistance, high performance in tough conditions.
3rd Millennium SRP	50 lb.	SRP (self-repair potential) due to spreading rhizomes. Brown patch resistant, darker, finer, ex. drought, shade & wear tolerance. Ideal for parks, home lawns, sports turf, & sod.
Triumph Tall Fescue Blend	50 lb	Mixture of top performing varieties. Wear tolerant, drought tolerant, attractive dark green turf. Does well in sun or shade. Also available in 25 lb. Bag.
<b>RYEGRASSES</b>		
	UNIT	New Lawns 6-7 lbs./1000 sq. ft., overseeding use half rate.
Annual	50 lb	Fast to establish, no undesirable grass seeds. Good for stabilization.
Apple GL	50 lb	Bred for resistance to gray leaf spot, exhibits broad spectrum disease & insect resistance. Improved salinity tolerance. Vigorous and aggressive.
Evening Shade	50 lb	Attractive and reliable, fast to establish. Dark green, good disease resistance particularly to red thread and crown rust.
Manhattan 5 GLR	50 lb	The newest improved version of the Manhattan family, offering resistance to gray leaf spot.
Paragon GLR	50 lb	Bred for outstanding turf the withstands attack by gray leaf spot. Unsurpassed color & texture.
Perennial Ryegrass, VNS	50 lb	Fast to germinate and establish.
Protégé GLR	50 lb	Top ranking turf qualities with high scores for gray leaf spot, red thread and crown rust resistance.
Triumph GLR Rye Blend	50 lb	Mixture of top performing 'GLR' varieties. Very high quality. Also available in 25 lb. Bag.
V I P 3 Blend	50 lb	A mixture of fine textured varieties that rapidly establish a beautiful turf for new lawns & overseeding. Available in 50, 25, 10, 5, 3 & 1 lb bags.
<b>MISCELLANEOUS</b>		
	UNIT	These items are sold by the lb. and packed as needed.
Alkaligrass, Saltonsea	Lb.	An improved alkaligrass for roadside seeding and for areas with high pH. Seeding Rate: 3-4 lbs./1000 sq. ft.
Big Bluestem	Lb.	15 lbs. per acre - tall (4-5 ft) native prairie grass, mixed or pure stands on well drained soils.
Canada Wild Rye	Lb.	30 lbs. per acre - native, perennial, 3-5 ft. tall, vigorous, sun to part shade, variable soil types - moist to dry.
Crown Vetch	Lb.	25-30#/A with an equal amount of annual rye as a nursegrass. Great stabilizer once established.
Indiangrass	Lb.	15 lbs. per acre - tall (5-7 ft.) native prairie grass for low maintenance areas. Plume-like seedhead.
Little Bluestem	Lb.	15 lbs. per acre - native prairie grass for upland or lowland areas, 1-3 ft. tall. Attractive russet-red fall color.
Sabre 3 Poa trivialis	Lb.	Attractive dark green turf for damp shaded areas only.
Redtop	Lb.	10 lbs./acre - tall, low maintenance grass for damp areas.
Side Oats Grama	Lb.	15 lbs/acre - 12-18" tall, native prairie grass, oatlike seeds hang down 1 side of stem.
Switchgrass	Lb.	15 lbs./A - tall (4-5 ft) native prairie grass. Drought tolerant but prefers moist sites. Great for conservation.
White Clover	Lb.	5 lbs. Per acre - often used in combination w/grasses, particularly for low maintenance areas.
Wildflower, Northeast Mixture	Lb.	5-10 lbs. Per acre - a mixture of perennials and annuals for beautiful low maintenance areas.

ROADSIDE MIXES		
	UNIT	
Formula B Mixture	50 lb.	Perennial Ryegrass, Fine Fescue, Kentucky Bluegrass
Formula C Mixture	10 lb.	Crown Vetch and Annual Ryegrass
Formula D Mixture	50 lb.	Tall Fescue and Creeping Red Fescue
Formula E Mixture	50 lb.	Annual Ryegrass
Formula L Mixture	50 lb.	Hard Fescue, Creeping red Fescue, Annual Ryegrass
Formula W Mixture	50 lb.	Tall Fescue, Birdsfoot Trefoil, Redtop
<p><i>CONSERVATION PLANTINGS NEED NOT BE COMPLICATED AND OUTRAGEOUSLY EXPENSIVE. OUR CONSERVE MIXES ARE SENSIBLE, EASY TO USE AND PROVIDE STURDY, RELIABLE PERFORMANCE UNDER THE MOST DEMANDING CONDITIONS.</i></p>		
CONSERVATION MIXTURES		
	UNIT	
Conserve Bio Swath Mixture	50 lb.	For ecologically sensitive areas requiring a quickly establishing lower growing cover designed for long term low maintenance performance under varying conditions. Ideal for use around solar panels or on wind farms. Seeding Rate: 100 lbs./acre.
Conserve High & Dry Mixture	50 Lb.	For revegetating and stabilizing low maintenance, infertile sites with dry soils, such as reclamation areas, golf course roughs, roadsides, landfills, and parks. Provides and food and shelter for small wildlife. Seeding Rate: 150 lbs. /acre.
Conserve Lowland Mixture	50 Lb.	This reclamation mixture is designed for sites with moister soils, including areas that are seasonally very damp. It is not for areas prone to frequent and prolonged standing water. Seeding Rate: 200 lbs./acre
Conserve Prairie Mixture	20 Lb.	This widely adaptable prairie grass mixture, while slow to establish, will ultimately provide a native grass stand that is ideal for stabilizing low maintenance, infertile sites while providing habitat for wildlife. Seeding Rate: 80 lbs./A, packed in 20 lb. Bags.
Conserve Low Maint. Basin Mixture	50 Lb.	An economical option designed for reliable site stabilization and vegetation in areas that are alternately wet and dry, on low maintenance, infertile sites. Seeding Rate: 200 lbs. per acre.
Conserve Wetland Mixture	Lb.	This mixture is designed to provide an attractive persistent cover in sensitive wetland areas. This mixture requires a high amount of moisture to thrive, and is not suitable for areas that are very dry seasonally. The items in this mixture are offered subject to availability. Seeding Rate: 15 lbs. per acre.

## Seeding and Lawn Care Supplies

**Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.**

PROFESSIONAL GRADE	UNIT/ COUNT	PALLET COUNT	UNIT COVERS	
Prof. 24-5-11 w/50% NS 52	50 Lb.	45/pallet	12,000 sq. ft.	50% NS-54 polymer coated sulfur coated urea (controlled release nitrogen), 4.86% sulfur, 3% iron.
Prof. Weed & Feed 16-0-8 w/Escalade/25% Poly-S	40 Lb.	55/pallet	12,000 sq. ft.	Fert.+ broadleaf weed control with Escalade (2,4-D, fluroxypyr, dicamba) & poly coated slow release N.
Prof. 19-0-6 w/.164 Dimension, 25% NS-54	50 Lb.	45/pallet	12,000 sq. ft.	Pre & early post-emergent control of crabgrass. Also controls or suppresses many other grassy & broadleaf weeds.
Prof. 18-0-5 w/.225 Allectus	50 Lb.	45/pallet	17,800 sq. ft.	Allectus controls both subsurface & surface insects. Not for golf courses & sod farms. Imidacloprid & bifenthrin.
Prof. 18-24-12 w/25% NS-54	50 Lb.	45/pallet	12,500 sq. ft.	Designed for new and over-seeding, contains 25% controlled release nitrogen for extended feeding, high phosphorous for root development.
19-19-19 (Low Stone)	50 Lb.	50/pallet	10,000 sq. ft.	Specially formulated for hydroseeding due to a low stone formulation.
14-28-16 W/30% SCU (Low Stone)	50 Lb.	50/pallet	10,000 sq. ft.	Low stone formulation, with 30% slow release nitrogen for extended feeding.
10-20-10	50 Lb.	50/pallet	5,000 sq. ft.	High phosphorous to promote root development.
10-10-10	50 Lb.	50/pallet	5,000 sq. ft.	Multipurpose fertilizer, good for starting lawns, and for fertilizing gardens and flower beds.

**Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.**

FORTIFY LAWN CARE PRODUCTS	UNIT/ COUNT	PALLET COUNT	UNIT COVERS	
Fortify Above & Below Grub & Insect Control	12 Lb.	100/pallet	6,000 sq. ft.	Bifenthrin + Carbaryl. Apply spring & summer. Preventative & curative, surface pests & grubs.
Fortify New Lawn Starter 12-16-8	16 Lb.	120/pallet	5,000 sq. ft.	Specially formulated fertilizer ideal for starting new lawns.
Fortify 20-0-4 Phosphorous Free Crabgrass Preventer	17 Lb.	120/pallet	6,000 sq. ft.	Contains .103% Dimension for crabgrass control and 6% controlled release N for extended feeding.
Fortify 20-0-4 Phosphorous Free Crabgrass Preventer	45 Lb.	45/pallet	16,000 sq. ft.	Contains .103% Dimension for crabgrass control and 6% controlled release N for extended feeding.
Fortify 28-3-3 Weed & Feed w/Dissolve	16 Lb.	117/pallet	5,000 sq. ft.	Contains Dissolve for post-emergent control of over 140 broadleaf weeds. 8.9% controlled release N. While supplies last.
Fortify 22-0-3 Phosphorous Free Weed & Feed w/Dissolve	54 Lb.	45/pallet	15,000 sq. ft.	Contains Dissolve for post-emergent control of over 140 broadleaf weeds. 3.3% controlled release N.
Fortify 29-3-4 Lawn Food	16 Lb.	117/pallet	5,000 sq. ft.	Fertilizer for a quick, deep greening. Extended feeding from 9.2% controlled release nitrogen. While supplies last.
Fortify 29-3-4 Lawn Food	48 Lb.	45/pallet	15,000 sq. ft.	Fertilizer for a quick, deep greening. Extended feeding from 9.2% controlled release nitrogen. While supplies last.
Fortify 18-0-12 Winterizer	16 Lb.	120/pallet	5,000 sq. ft.	3% slowly available nitrogen, iron and sulfur. Stimulates root growth and promotes hardiness.
Fortify Season Long Grub Control w/Merit	15 Lb.	120/pallet	5,200 sq. ft.	Apply April - mid June to control grubs with Merit Insecticide. Preventative.
Fortify Lawn Weed Control Granules	20 Lb.	100/pallet	10,000 sq. ft.	Broadleaf weed control w/Trimec on a specialized carrier that stays on weeds for improved control.
Pet Safe Lawn Food 31-0-10	16 Lb.	120/pallet	5,500 sq. ft.	Safe to walk on immediately after watering in as it quickly dissolves into roots. Phosphorous Free, 45% MuTech Slow Release Nitrogen.

**Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.**

**LIME PRODUCTS**

UNIT PALLET COUNT

Cal Turf Pro Pelletized Limestone w/Chelating Agent	50 Lb.	50/pallet	50 lbs covers up to 10,000 sq. ft. Maintenance rate 220 lbs/acre, corrective rate 500 lbs/acre. Fast acting, immediate results.
Pelletized Pulverized Calcitic Limestone	40 Lb.	70/pallet	For new planting, 2,000 lbs per acre. For maintenance, 1000 lbs./acre.
Guideline Athletic Field Marker	50 Lb.	70/pallet	White crushed calcium carbonate. Will not harm soil or vegetation.
NeutralLime Dry (4-10#bags/case)	4/10 lbs.	48/pallet	Quickly improves soil pH in the seed germination zone, mixes easily in the tank. 40 lbs./acre, 4 lbs/300 gal.

**EROSION BLANKETS AND FASTENERS**

UNIT PALLET COUNT COVERAGE

**Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.**

ECS-1 Erosion Blanket	7'6"x120' 20/pallet	100 sq. yards	Single net straw blanket, 100 sq. yds., . For average application, use 160 staples per roll.
ECS-1AA	3'9"x120' 20/pallet	50 sq. yards	Single net straw, 50 sq. yds., . For average application, use 80 staples.
ECS-2 Erosion Blanket	7'6"x120' 20/pallet	100 sq. yards	Double net straw blanket, 100 sq. yards. For average application, use 160 staples per roll.
F4 Netless Blanket (Green)	39"x90' 32/pallet	39"x90'	Netless wood fiber blanket protects seed & soil. For average application, use 65 staples per roll.
Seed Protector Mat (Green) (25 per box)	39x18' 75/pallet	39"x18'	Netless wood fiber blanket protect seed & soil. For average application, use 15 staples per roll.
Staples - Steel (6 x11 ga.)	1000/cs. 50 cs/pal	2 per sq. yd.	11 gauge steel staples, 6" long, 1" wide.
Staples - Steel (6 x11 ga.)	200/pack		
Staples - Biodegradable (500 per case)	500/cs. 72 cs/pal	2 per sq. yd.	Biodegradable blanket staples, 4" long.
Staples - Biodegradable	25/pack		
Staple Stick - For Installation of Steel Staples	1 stick		Install blankets without bending to apply metal blanket staples. Simple, sturdy design.
Staple Stick - For Installation of Biodegradable Staples	1 stick		For application of our biodegradable staples.

**Always read and follow the manufacturer's instructions as the rates below are only a guide will vary based on site conditions.**

<b>TURFACE</b>	<b>UNIT</b>	<b>PALLET COUNT</b>	
Field & Fairway	50 lb. bag	40 bags	Topdressing and construction material. Incorporate in rootzone to add porosity, prevents compaction and muddy conditions.
MVP	50 lb. bag	40 bags	Conditions infields to reduce compaction. Incorporate in soil, topdress after aerification, or rototill into soil before planting.
MoundMaster Blocks - Red	8 blocks per bag	38 bags (304 blocks)	Maintain superior pitching & batting surfaces. High quality packing clay in ready to use blocks. Blocks are 2.5" x 4"x8". Use approx. 150 for mounds, 225 for batters box.
Quick Dry	50 lb. Bag	40 bags	Quickly eliminates puddles and standing water. Long lasting, prevents future standing water. Will not cake, harden or blow away.
<b>MULCHES</b>			
	<b>UNIT</b>	<b>PALLET COUNT</b>	<b>COVERAGE</b>
Jet Spray w/FiberMax	40 lbs. 50/pallet	1500#/A 40#/100 gal.	Pourable mulch for jet agitated machines. 25% wood/80% paper, with FiberMax & Tack Agent 3, dark green.
Seed Aide Mulching Granules	50 lbs. 40/pallet	75#/1M sq ft	Pellets expand when wet to protect soil and seed. Contains wood & paper mulch, clay, tackifier and biostimulant.
Terra Mulch-100% Cellulose	50 lbs. 40/pallet	2000#/A 50#/100 gal.	Specially processed newspaper. Less fine particles reduces mache effect, mixes quickly stays in uniform suspension. Dyed dark green.
Terra-Mulch Blend 70% Wood/30% Cellulose	50 lbs. 40/pallet	1500#/A 38#/100 gal.	Better erosion control than paper mulch, holds more water than wood fiber mulch. Contains UltraGro BioStimulant . Dyed dark green.
<b>SEEDING SUPPLIES</b>			
	<b>UNIT</b>	<b>PALLET COUNT</b>	
FiberMax (Poly-Fibers) (6 - 5 lb bags per case)	6/5 lb. 60/pallet	20#/A 3#/300 gal.	Maximizes mulch by making a stronger bond, increases shooting distance.
Floc Loc (PAM)	40 lb. 36/pallet	3#/acre .3#/300 gal.	Polyacrylamide for a viscous slurry, improves shooting distance & suspension. Straw tacking use 5-7#/A.
Jump Start 5 Growth Stimulant (4/10# /case)	4/10 lbs. 48/pallet	25# per acre	Soil penetrating agent, humic acid and over 200 species of beneficial soil bacteria, for a faster & stronger start.
SlikColor Dye Crystals (2 -11 lb. bags/case)	2/11 lbs. 36 cases	.3#/300 gal.	For curb appeal & to assist in application. PAM added to act as a hose slickifier to increase shooting.
Terra-Mulch Tack Agent 3	25 lbs. 80/pallet	30#/A 3#/300 gal.	No cure time. Contains polyacrylamide. Hydro-colloid polymers enhance soil-fiber bond, reducing erosion/runoff. Increases mulch water holding capacity. W/marker dye.
Terra-Mulch Tack Agent 3 (7-3 lb. Water Soluble Bags/Case)	7/3 lb. 56/pallet	30#/A 3#/300 gal.	Convenient water soluble bags of Tack Agent 3. Use 3 lbs per 300 gallons.

CONTROL PRODUCTS		UNIT
<b>WEED CONTROL</b>		
Barricade 0.48% on DG Pro	50 Lb. 45/pallet	Preemergent control of crabgrass and other listed annual grasses and broadleaf weeds. Covers 14,200 sq. ft.
Tupersan 4.7%	20 Lb. 98/pallet	Provides preemergent control of crabgrasses and other listed annual grassy weeds on newly seeded lawns. Covers 8,000 sq. ft.
Trammel 5% on DG Pro	40 Lb. 55/pallet	A selective, preemergent herbicide (Trifluralin) for many grasses & broadleaf weeds. Not for turf use. Application rate: 80 lbs./acre.
Snapshot DG	25 lb. 84/pallet	Selective pre-emergent herbicide (Trifluralin + Isoxaben) for pre-emergent control of broadleaf and annual grasses in ornamental and nursery plantings for 6-8 months. 25 lbs covers 7,100 sq. ft at medium rate. Not for sale in NY.
Weed Beater Ultra Concentrate	1 Gallon	The ultimate systemic broadleaf weed killer for lawn and turf. New chemistry that's especially effective on over 200 hard to kill weeds, right to the roots. Visible results in just 24 hours! Rainfast once dry. Reseed in just 2 weeks! Superior cool weather performance down to 45 °F extends application window to early spring and to late fall, when weeds are most susceptible. Non 2, 4-D formula contains MCPA, Mecoprop-p, Dicamba and Carfentrazone. One quart treats over 20,000 sq. ft..
Weed Beater Ultra Concentrate	1 Pint	
Weed Beater Complete	10 Lb.	Provides both pre-emergent and post-emergent control of both grassy & broadleaf weeds - including CRABGRASS, nutsedge, goosegrass, ground ivy, & others. Systemic action from leaves to roots inhibits cell division & disrupts photosynthesis. Works on cool and warm season grasses. A synergistic combination of Proflaminate and Sulfentrazone. Exhibits excellent cool weather performance. 10 lbs. covers 5,200 sq. ft. Not for sale in NY.
Kleen Up Concentrate	1 Gallon	Kills all unwanted weeds and grasses. Great for preparing flower beds, vegetable and ornamental garden sites, renovating lawns and for multipurpose weed control. Can reseed 7 days after treatment. Visible results in 7 days. Complete, "to-the-root" control in 2 - 4 weeks. One gallon makes 84 gallons of spray and treats 25,200 sq. ft. Glyphosate 41.0% with surfactant.
Kleen Up Concentrate	2.5 Gal.	
Kleen Up Concentrate	1 Quart	
Total Vegetation Killer	2.5 Gal.	Non-Selective (kills all vegetation) soil sterilant. Prevents new growth for up to 1 full year! One gallon treats 500 sq. ft. No odor, water based formula. Grass, Weed and Vegetation Killer. Contains Pramitol 2.2%. Restricted in CO.
<b>INSECT CONTROL</b>		
DuoCide G on DG Pro	40 Lb. 50/Pallet	Contains Bifenthrin and Carbaryl for broad spectrum multi-mode insect control - above & below ground, preventative & curative. On DG Pro dispersible granule carrier, to provide higher particle count and distribution of insecticide. Covers 20,000 sq. ft. at low rate.
<b>FUNGICIDE &amp; MOSS CONTROL</b>		
Mossmax Lawn Granules	20 Lbs.	Kills lawn moss quickly. Turns lawns a deep green. Contains no fertilizer for no excess growth and less mowing. 20 lbs. per 5000 sq. ft. Applies easily with standard lawn spreaders. 23.34% Ferrous Sulfate Monohydrate.
Prophecy 0.72G Fungicide on DG Pro	25 Lb. 42/pallet	Systemic fungicide, prevents & controls diseases such as dollar spot, brown patch, & red thread. Contains propiconazole in a dry flowable formula. DG Pro carrier minimizes mower pickup after irrigation. Use drop or rotary spreader. Covers 5-10,000 sq. ft.
